The readers will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for each and every case it fails to cure. Send for list of testimonials. Address: E. J. CHERNEY & Co. Well, as the primary and fairs are over we will try to send another letter. It has been useless to send one heretofore for there seemed to be no space for any

thing but election-rings.—Chas. Chandler is very sick with fever.—Mrs. W. H. Brown and two little daughters, Bernice and Ruth, who have been here for three weeks, will return to their home at W. McAlister, Okla., Saturday.—Misses Ola and Kate DeBord were visiting relatives at Catron, Ky., a part of last week.—Mrs. G. C. Price and little daughter, Salie, of Judson, Ind., are here for a months' visit with relatives and friends.—Mrs. J. M. Broyles, who got her leg broken about five weeks ago, is getting along nicely and will soon be able to be taken to her home at Plato.—A much needed rain fell here Tuesday afternoon. Corn in general was practically burning up.—W. J. Brown was down from Crab Orchard, Sunday, and spent the day with his father and mother, Mr. and Mrs. W. H. Brown.—Arthur Sweeney, who has been in the west for twenty years, and for some time was not heard of, is now at the home of his uncle, Dr. G. B. Lawrence, at this place.—Mrs. Mary E. Curley is slowly improving.—Mrs. C. M. Nelson and brother, Edd Jones, spent a part of last week with relatives at Science Hill, Ky.—The wedding of Miss Alma Burton, daughter of Mr. and Mrs. M. E. Burton and Mr. W. H. McQuary, son of the late Frank McQuary, two of Pulaski's most prominent young people, was solemnized at Bur-

nett's Chapel, last Wednesday evening.—W. E. Hasty is suffering very much with malaria.—W. M. Snyder returned last week from a few days' visit at Corbin.—Earnest Cummins, who has been very sick for two weeks, shows but very little sign of improvement. His condition is serious.—R. H. Brown attended Broadhead Fair, Wednesday.—Mrs. May Niceley, Mrs. W. H. Brown and children, spent Monday with their aunt, Mrs. Hattie McQuary at Plato.—Miss Grace Thompson, and brother, Russell, of Kings Mt., are spending a few days with their aunt, Mrs. Mattie E. Price.—There will be services at Friendship next Saturday and Sunday, conducted by George Darger, of Woodstock.—Mrs. M. E. Price and little daughter, Joyce, returned Wednesday from a few days' stay with her daughter, Mrs. F. L. Mullins.

HOW IT HAPPENED.

The overwhelming victory for A. O. Stanley for the Democratic nomination for Governor in the primary election on Saturday was no surprise to us. It was not so much a personal triumph of one candidate over another, as it was a victory for County Unit law over State wide prohibition. This was made the real issue in the campaign, as much as if there had been a direct vote on the question itself instead of a vote between the two contending candidates, Stanley and McChesney. Mr. Stanley declared on every stump that, if elected, he would veto any bill passed by the Legislature to repeal the County Unit and would stand for any act to make the enforcement of the law more effective. Regardless of Mr. Stanley's former attitude on this question, the temperance people, who had made the platform of 1911, which resulted in the adoption of the County Unit law, took Mr. Stanley at his word and voted for him. Mr. Stanley owes his nomination and his tremendous majority to the County Unit voters. The election returns prove this system conclusively. In Louisville, the strongest "wet" center, Stanley lost; in McCracken county, with the city of Paducah, another "wet" center, he also lost. In Daviess county, another "wet" county, he failed to get a majority of the vote, and in Covington and Newport he received a smaller per cent. of the vote than he did last year, when he ran against Beckham. On the other hand, Mr. Stanley carried more than three-fourths of the dry counties and more than four-fifths of the Democratic dry counties. Barren county, which gave Beckham 600 majority last year, gives Stanley 1000. Warren, which gave Beckham 400, gives Stanley 600, and Owen, another strong "dry" county, gives Stanley more than 1,000 majority. In the dry Democratic counties alone Mr. Stanley defeated Mr. McChesney by more than 25,000 votes, which shows conclusive that the dry voters of the State nominated the Henderson man.

The issue between County Unit and State Prohibition having been fought out in the primary and settled there is absolutely no reason why every Democrat should not give to the ticket nominated last Saturday a most hearty and enthusiastic support. Mr. Stanley made a brilliant and sensible campaign. He pitched his race upon a high plane and won votes wherever he spoke. He is a splendid Democrat and has never deviated in the most hearty enthusiastic support of his party. He made more speeches for Beckham last year after Beckham had defeated him than Senator Beckham made for himself. He is entitled to the same loyal party support from Democrats which he has always given. We have known Mr. Stanley ever since he entered upon his political career, and while we have never supported him for a nomination we know he is an honest man, and that if elected Governor every pledge he made the people upon the stump will be strictly adhered to. While there is some doubt, as we write this, about most of the minor offices, we are confident a good ticket has been named and one worthy of the support of every Democrat.—Harry Summers in the Elizabeth-town News

Our Fair having made a success during a close year and with contemplated improvements in building about the grounds for next year there is no reason why the 916 exhibition, which will proba-

bly be set for early September should not be a greater success. The stockholders, directors and officers of the Association are fully determined to put on an exhibition second to none in the mountains. "All out for the Boone Way Fair" of 1916.

ONE of the best things done in the mountains at late primary was the nomination of Joe Bosworth, of Middlesboro, for Legislature. He being the father of the Kentucky good roads law should be retained in the law making department at Frankfort the remainder of his days, or as long as he wishes to be sent. One thing we can't understand, why there should be any opposition whatever offered against his unanimous election every two years.

Now, the primary election being over, let's get back to rock building.

Louisville Woman Finds Speedy Relief by the Use of Tanlac

Louisville, Ky. Mrs. Frank Pettis, wife of the well known assistant chief electrician of the Louisville & Nashville railroad, who resides at 800 Camp street, Louisville, is among the many women who have found speedy relief from serious illness by the use of Tanlac. Mrs. Pettis said: "I have been in a nervous, run-down condition for some time. My digestion was very poor, and I had difficulty in eating solid foods. I was so depressed in spirits at time that I almost had a dread for the future."

Tanlac proved to be just what I needed. The medicine acted like a general tonic for me, I am improved in every way, and I very cheerfully endorse Tanlac". Tanlac is sold in Mt. Vernon at the drug store of Chas. C. Davis and can also be obtained at the Central Drug Co., Livingston and John Robins Drug Store Brodhead Ky.

From the number of cases of typhoid in Mt. Vernon it has almost reached the epidemic stage and unless the disease subsides at once, it looks to us that the health authorities should take steps to locate the source of the trouble.

An article in this issue copied from the Paris Democrat, will explain why Theodore Stockman, the Aeroplane man failed to appear with his machine at Mt. Vernon Fair where he had contracted to give two days exhibition.

The following persons were entertained by Miss Jennie Marrow Miller at Crab Orchard Springs, last Friday evening:

Miss Juanita Stotts, Mr. and Mrs. R. S. Jett, Messrs. Louis Miller, Gordon Eversole, Dewitt Vandiver, Cecil Mahan and Lisab Donovan.

A test of the Old Spout spring water recently made, shows the same to be impure and judging from the number of cases of typhoid, many of whom used water from this famous spring, it begins to look like the trouble or at least a goodly portion comes from the spout spring water.

LIFE OF JOSEPH.—The writers, Nora Orton, Arthur Thompson, Vernon Cox and Sadie Parsons, who exhibited their writings at Mt. Vernon Fair, are requested to hand their articles to Mr. Felix Bowman, who gave the special premiums for the best original story of the life of Joseph by a girl or boy of Rockcastle.

AVIATOR STOCKMAN INJURED.

It wasn't Aviator Stockman's fault that he didn't "zibit" here Saturday afternoon.

The climax to the series of accidents which have beset the nifty birdman since his inaugural flight at Parks' Hill some months ago, came Saturday afternoon.

Stockman had made a start from the Hancock farm on the Winchester pike near Paris and was skimming rather low when his engine working badly, he was compelled to make a detour and return to the landing place. Just after passing over the pike his machine swerved struck a big gate post, and was demolished.

Stockman was thrown from his seat striking on his side and shoulder. Four ribs were broken and his arm pierced through by striking the sharp end of one of the broken bamboo stays.

He was removed to the Massie Memorial Hospital where he is at present resting comfortably.

The streets of Paris were filled with a crowd eager to see Stockman duplicate his remarkable flight of the preceding Saturday, and they were greatly disappointed when it became generally known that the accident had happened.—Paris Democrat.

Crab Orchard Springs is having a fine run of custom.

One third off the regular prices of all Men's Low Cuts at Fish's.

The next big excitement is the sale of Baby Farms, Saturday afternoon Aug. 21st.

If a man is afraid to say it himself he nearly always asks a newspaper to do it for him.

Topeka and Shawnee counties, Kansas, have taxed themselves to give a free county fair each year.

Don't miss the sale of Baby Farms Saturday, Aug. 21st. When you see them you'll have to have one, that's all.

If you'd like to own a good orchard, here's one for you "ready made". You don't have to wait for the trees to grow, they are already loaded with fruit. Come and see them and take your pick on Aug. 21.

Why They Can't Vote

Before women suffrage is granted in Indiana the election laws will have to be revised. A section of the laws reads as follows: "The curtains in front of the booths must be of sufficient height from the floor to make the lower limbs of the voters plainly visible to the election officers."

NOT SO STRANGE AFTER ALL

You may think it strange that so many people are cured of stomach trouble by Chamberlain's Tablets. You would not however, if you should give them a trial. They strengthen and invigorate the stomach and enable it to perform its functions naturally.

Mrs. Rosie Rish, Wabash Ind., writes, "Nothing did me the least good until I began using Chamberlain's Tablets. It is decidedly the best medicine for stomach trouble I have ever used." For sale by All Dealers.

THE CASE OF L. L. CANTELOU.

The case of L. L. Cantelou, Clarendon, Texas is similar to that of many others who have used Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says, "After trying a doctor for several months, and using different kinds of medicine for my wife who had been troubled with severe bowel complaint for several months, I bought a 25c bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After using the second bottle she was entirely cured." For sale by All Dealers.

Henry Anderson, who believes that there is but one automobile and that is the Ford, drove to Middlesboro, a few days ago to take Mr. and Mrs. Holmes Cummins, who have made Stanford their home for the past six months. It took him three days to make the trip to the ex-magic city, but he returned in just half of the time. Mrs. Cummins is a magazine writer and she wants to travel over the Boone Way and stop at the more historic points on the route. She took many pictures along the way and this took up a good deal of time. "My Ford ran all right and I had no trouble with it, but just beyond Hazel Patch we had to get a pair of mules to help us up a hill. The night was very dark, the

F. C. Howe

On The Advantages of Free Ports

Mr. F. C. Howe, Federal Commissioner of Immigration, who is one of the best American authorities on marine commerce, in discussing the relation of free ports to the development of sea trade said in part:

"Ships will go hundreds of miles out of their way to avoid ports surrounded by a tariff wall. The only way, therefore, for a country with a tariff to compete in the shipping world with a free-trade country is to establish free ports at strategic points along its coast line. Germany has done so, and in a comparatively short period has built up a carrying trade which before the war was seriously threatening England's supremacy. Hamburg, one of the three German free ports, now ranks as the second greatest seaport in the world, its total foreign commerce in 1913 being only \$6,000,000 under that of New York.

"The free port would offer great opportunity for financial operations, now made possible by the recent currency act. It would stimulate international banking, and would tend to shift the financial center of the world to this country. And America, by the logic of events, has become the natural center for the world's financing, just as London became that center several centuries ago, when it shifted from the cities of the Netherlands. But the financial center will only move to this country when it becomes a clearing house of goods as well as of money. For credit the world over is created by currently created wealth in transit or change so that our financial expansion is dependent upon the opening up of American ports to the clearance of the wealth of the world. A port should not operate to yield a return on the investment, but to develop the prosperity of the country. In recapitulating the advantages, Mr. Howe brings out the importance of the free port in developing our shipping and linking us with South America, Asia and Africa, and then concludes:

"The most important gain is the direct gain to America. It will cheapen commodities by bringing great quantities of goods to our doors for importation or export, as trade needs demand. It will stimulate the growth of exporting houses, which can hold goods for an indefinite period without payment of tariff dues (often equal to the cost of the article itself) for disposal to meet the trade demands of the whole world. It will upbuild international credit and shift to America an increasing and ultimately a predominant share in international exchange.

"Finally, America is the natural country to be the counter of the world. Its seacoasts face every other continent; it is the greatest of all reservoirs of raw materials and foodstuffs. In iron and steel and standardized production it is in a position to compete with the world. But international trade (and this is always overlooked) must be reciprocal. It cannot be one-sided. And credit balances cannot for any prolonged period be paid in gold. They can only be paid by exchange of wealth."

Peter Radford

On Too Many Lawyers.

When the sheriff cries out "Oh! yes, Oh! yes, the court is now in session," the farmer should tighten the belt around his belly for it is he who pays the cost. When the lawyer says "May it please the court," the farmer has to shorten the shirts of his children for they must foot the bill and when the legislature announces "Be it enacted," unborn babes may well kick against their prison walls for they may live to pay the penalty. We have too many laws, too many lawyers and too much government. No man dares to run a business without lawyers to the right of him and lawyers to the left of him. Expensive litigation and excessive legislation are clogging the wheels of progress. To meet this situation the railroads are oftentimes compelled to take off a train and put on a lawyer; the manufacturer is oftentimes compelled to close down a furnace and put on a lawyer; the farmer is oftentimes compelled to sell a steer to pay the lawyers, for the man who digs in the ground usually pays the freight and every article which he buys carries on the price tag court costs and lawyers' fees.

There are in the United States 115,000 lawyers and about twenty thousand courts of various jurisdiction which cost the people of this nation approximately \$1,500,000,000 per annum. It costs more to run the legal affairs in this nation than it does to clothe all the people. It costs more to settle legal disputes than it does to run our educational and religious institutions and care for the health of all the people combined. Less than three per cent of our population are able to employ lawyers to interpret the mass of legal lore that burdens our statute books. The remaining ninety-seven per cent have to take the law stuff right out of the mill.

We are a government by lawyers and for lawyers. It is they who are responsible for the legislative curricula, espionage, unrest and business disturbance that infest our statute books, for at the source of most every law is a lawyer. They have in no case lowered the price of the commodity or benefited the people but they have burdened industry and restrained commerce and have built up their profession until it dominates government, tyrannizes business and terrorizes progress.

There is no more valuable citizen in our land than a patriotic, able, conscientious lawyer, seeking to direct the ship of state through the tortuous channels of 20th century civilization; piloting a business through the legislative billows that dash with maddened fury across its pathway and whose genius can calm the fear and command the confidence of the people in the integrity of Republican institutions, but there is no greater peril to society than a political lawyer who seeks to prostitute government, stain business with suspicion and arouse distrust in the minds of the people. Unfortunately the latter class are a strong factor in the profession, oftentimes in high places, and unless the better class unite in driving the quacks from their midst an outraged public opinion will administer a rebuke that will humble the pride, crush the hope and smash the power of the profession and reduce its possibilities to ashes.

II--L. E. Johnson

On Two-Cent Passenger Rates

The farmers of this nation are vitally interested in railroad rates and equity between passenger and freight rates is especially important to the man who follows the plow for the farmer travels very little but he is a heavy contributor to the freight revenues. Some of the states have a two cent passenger rate and whatever loss is incurred is recovered through freight revenue. The justice of such a procedure was recently passed upon by the Supreme Court of West Virginia and the decision is so far-reaching that we have asked L. E. Johnson, president of the Norfolk and Western Railway whose road contested the case to briefly review the suit. Mr. Johnson said in part:

"Some ten years ago, passenger fares were fixed by the legislatures of a large number of states at two cents a mile. As a basis for such economic legislation, no examination was made of the cost of doing the business so regulated, nor was any attention given to the fact whether such a rate would yield to the railway companies an adequate or any net return upon the capital invested in conducting this class of business. "Such a law was passed in West Virginia in 1907. The Norfolk and Western Railway Company put the rate into effect and maintained it for two years. Its accounting during these two years showed that two cents a mile per passenger barely paid the out-of-pocket cost and nothing was left to pay any return on capital invested. It sought relief from the courts. Expert accountants for

both the State and the Railway Company testified that the claims of the railroad were sustained by the facts. Two cents did not pay the cost of carrying a passenger a mile. The State, however, contended that the railroad was earning enough surplus on its state freight business to give a fair return upon the capital used in its passenger service as well as its freight business. For the purpose of the case, the railroad did not deny this, but held to its contention that the State could not segregate its passenger business for rate fixing without allowing a rate that would be sufficient to pay the cost of doing business and enough to give some return upon the capital invested in doing the business regulated. This was the issue presented to the Supreme Court. Its decision responds to the judgment of the fair-minded sentiment of the country. The Supreme Court says that, even though a railroad earns a surplus on a particular commodity by charging a reasonable rate, that affords no reason for compelling it to haul another person or property for less than cost. The surplus from a reasonable rate properly belongs to the railway company. If the surplus is earned from an unreasonable rate then that rate should be reduced. The State may not even up by requiring the railroad to carry other traffic for nothing or for less than cost. The decision is a wholesome one and demonstrates that the ordinary rules of fair dealing apply to railway companies. The fact that one makes a surplus on his wheat crop would never be urged as a reason for compelling him to sell his cotton at less than cost. It would not satisfy the man who wanted bread to be told that his high price enabled the cotton manufacturer to get his raw product for less than cost. In this case the court reaffirmed the homely maxim that each tub must stand upon its own bottom."

writes as follows: "I was down with

stomach trouble for five (5) years, and

would have sick headache so bad, at

times, that I thought surely I would die.

I tried different treatments, but they

did not seem to do me any good.

I got so bad, I could not eat or sleep,

and all my friends, except one, thought I

would die. He advised me to try

Thedford's Black-Draught, and quit

taking other medicines. I decided to

take his advice, although I did not have
